#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the manner of use and place of use of the waters of an underground source as heretofore granted under Permit 50087, is issued subject to the terms and conditions imposed in said Permit 50087, and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 53413, 53420, 53422 and 53428 shall not exceed 3,444 acre-feet annually.

The total combined duty of water under Permits 53407, 53409, 53410, 53411, 53412, 53413, 53414, 53415, 53416, 53417, 53418, 53420, 53422, 53423, 53424, 53425, 53426, 53427, 53428, 53433, 54135, 54136 and 54137 shall not exceed 13,000 acre-feet annually.

(Continued on Page 3)

(PERMIT TERMS CONTINUED)

This permit is issued pursuant to the approved revised monitoring plan dated May 2, 2006. The State Engineer retains the right to modify said monitoring plan as he sees fit.

The permittee or any assignee is required to submit an annual report of the monitoring results to the State Engineer. Upon review of the annual monitoring results, the State Engineer will evaluate the pumping from this well and take any action that may be necessary to protect the public interests or to prevent conflict with existing rights or existing domestic wells.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 6.0 cubic feet per second, but not to exceed 3,444.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

November 28, 2009

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

November 28, 2016

Map in support of proof of beneficial use shall be filed on or before:
